Hey Waddle team,

My name is Ryan, and I'm a content creator (account #1, account #2) & Columbia Engineering Student (linkedin lol)

I'm currently at a Whop Hackathon & **our goal is to make as much money as possible with AI til 6:30 PM today, October 24, 2026.**

(the hackathon luma link)

(me & my boy currently @ the hackathon)

I saw your content for Waddle, and **I can help create lots of high quality ads for your brand.**

Here's a piece of content we made targeting 18-21 year old Londoner's interested in football, Wingstop, and streetwear: PS2_penthouse_FINAL_v4.mp4

(fully made w/ AI btw, selling a general hoodie found on Amazon)

(I've seen Waddle's content)

Here's the promise I'll make for Waddle ->

We'll create 10 High-Converting AI UGC ads for Waddle.

(& If you don't like them, 100% Money Back Guarantee)

Normally, I'd sell this service for $1,000

But because I'm at this hackathon, I'll do it for **$500**

LMK ASAP! Gotta build this by 6:30. Full Money Back Guarantee if you don't like results. Willing to work on your project as long as necessary too. Preciate you taking the time.

And if you need more proof…

Here's a creator ripping the same content whose made $100K in sales for his brand & does >1M views per month with AI ads like mine: link to account, link to brand
